Level up your drive

Smart meets stylish.

From its sleek exterior to its cutting edge interior, the new Polo is a game-changer. Made to impress, the IQ.LIGHT matrix LEDs exude confidence, while IQ.DRIVE offers the intelligence to back it up.

True to its engineering the new Polo sets the standard for automotive innovation, taking you to the next level.

The look of **confidence**

Drive smart, not hard.

Designed to turn heads, the new Polo has a fresh new look that commands every road. Its LED light strip on the front grille connecting the headlights instantly catches the eye, along with two-part taillights, an animated indicator function, a new chassis with sharpened lines and a fresh front and rear bumper design.

Giving you the confidence to take on the night, IQ.LIGHT and Dynamic Light Assist are always one step ahead. With individual LEDs keeping the main beam always-on, the new Polo is smart enough to adjust your headlights away from oncoming drivers at night - giving you a safer, more comfortable drive.

Step up your game with IQ.DRIVE*

A car that thinks as fast as it moves.

The new Polo's IQ.DRIVE features put your safety above all else.

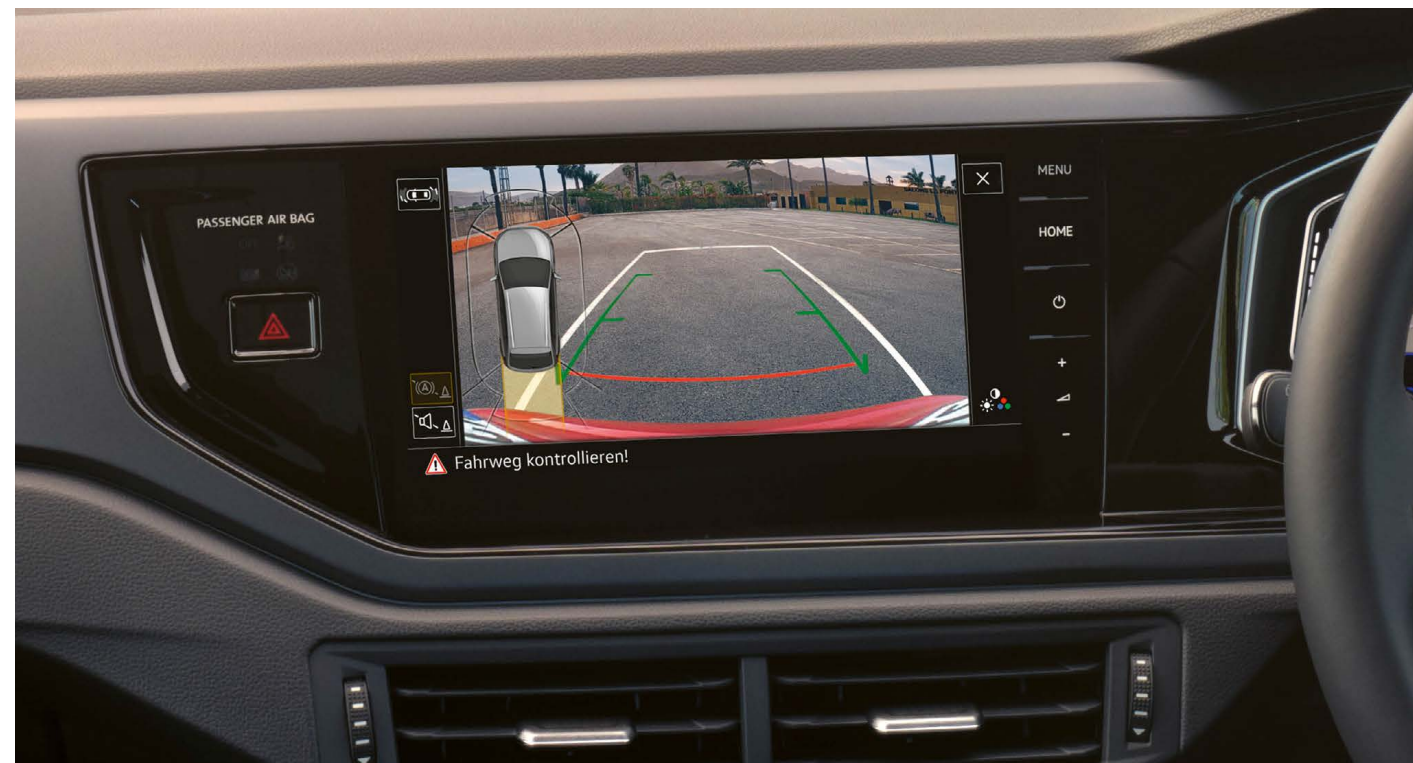

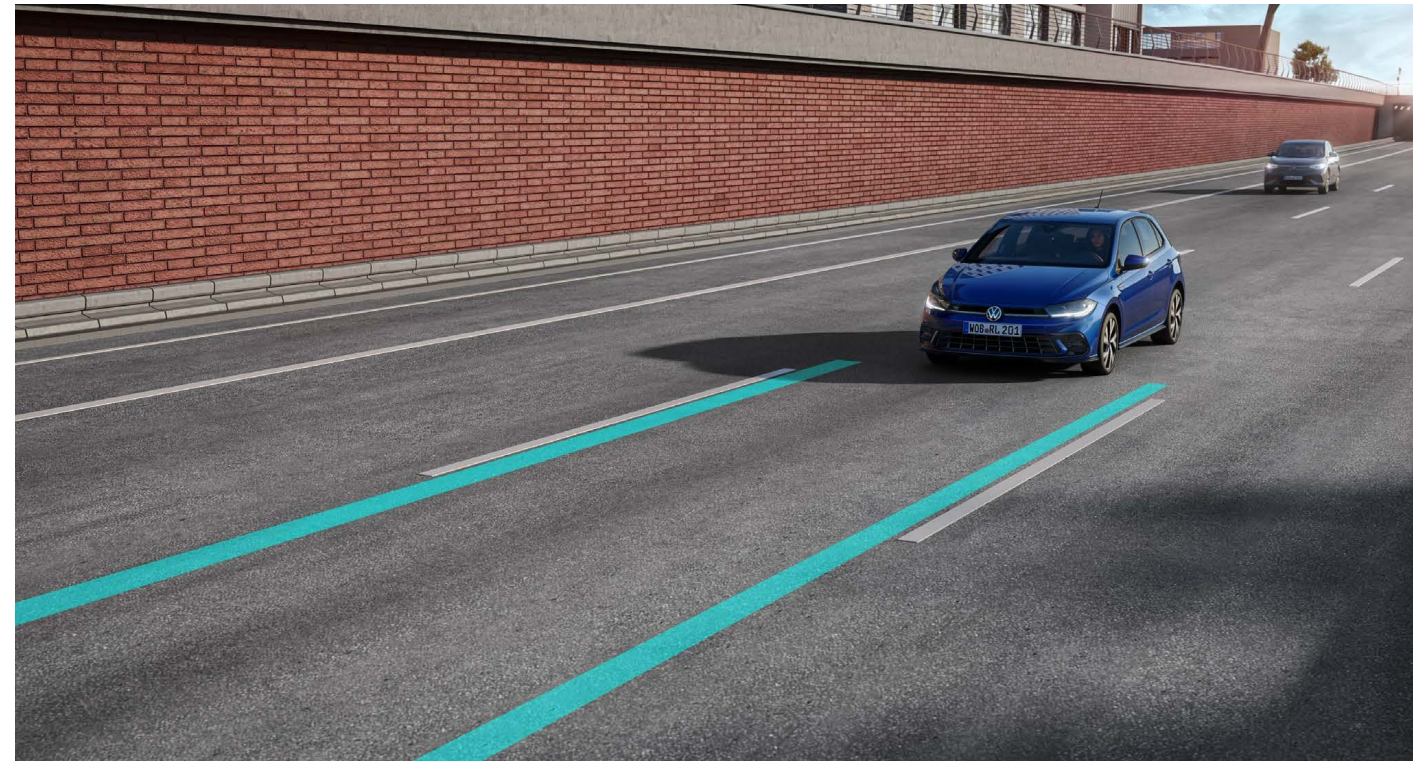

Put your confidence in a car that thinks as fast as it moves.

With Travel Assist, your Polo keeps in its lane, maintaining its distance from the vehicle in front and maintains your pre-defined speed (within system limits). IQ.DRIVE ensures your hands are always on the wheel while driving, with the touch-sensitive steering wheel.

Front Assist detects obstructions in front of your Polo and automatically activates the car's brakes, preventing potential collisions.

Adaptive Cruise Control not only maintains your set speed but also adapts to the speed of the traffic ahead by braking and accelerating (within system limits).

Park Assist automatically adjusts your steering with rear-view camera, helping to detect any obstacles behind you.

Interior **innovated**

Click and connect.

Improving your performance, the new Polo is always connected with the standard, fully digital, dynamic 8-inch cockpit display, also available in 10.25 inches. The new Polo keeps you at the top of your game.

Your kind of drive
